ACSI Recognized- Top Work Places in Middle Tennessee

Once again, Automated Collection Services, Inc. (ACSI) employees have voted the company a “Top Work Place”, in Middle Tennessee. ACSI began participating in the program in 2014 and our evaluation results reflect an even more positive assessment from the employees for 2015. The “Top Work Place” program was developed by Workplace Dynamics in 2006 to determine which companies’ personnel are the most satisfied workers among the elite of the region. The whole program is based on one simple belief:

“The most successful companies are the ones that employees believe in.”

The surveyed companies were categorized into small, midsize and large organizations. Then each company’s employee completed an anonymous survey critiquing the areas of professional development, work/life balance, managerial/leadership support, concern and direction, salary & benefits, company vision and execution, employee appreciation and relevance, and retention, motivation and referral. In middle Tennessee more than 900 companies were invited to participate. Not only was ACSI selected as one of the top work places in our size category, it was the only collection agency selected in all 3 size categories out of the 70 receiving this designation.

“In any company and especially a service based company, employee satisfaction is the key element to providing excellent services to our clients.” said Don Taylor, President

ACSI takes great care in maintaining its’ winning culture. Employees genuinely appreciate the hands on style of management and we are all a team working together. Each person is valued for their contribution and are recognized for outstanding achievement.

I am very pleased ACSI was recognized in middle Tennessee receiving one of the coveted “Best Places to Work” for 2015. I want to thank all our staff for making ACSI a great place to work.” said Rob Duffy, CEO.
